Sexualities: Past Reflections, Future Directions (Genders and Sexualities in the Social Sciences)

With contributions from established and emerging scholars, this collection draws on original research to consider recent theoretical and methodological debates, shifts in law and policy, and social and cultural changes around sexuality. The book bridges identified gaps between theory, research methods and practice, and lived experiences across time and place. It reflects on the current wave of interdisciplinary work, setting out new ways of conceptualizing and researching sexuality and explores persistently marginalized, re-traditionalized and normative sexual practices, subjectivities and identities. This distinctive consideration of innovative contributions from across the humanities and social sciences places emergent debates, enduring legacies and new queries within its 'reflections' and 'futures'.
