Writing Insights: What Professional Writers Know About Structure and Content Paul Aamot

Hundreds of thousands of English teachers deserve to have and use a supplemental writing text like *Writing Insights* to teach millions of students what they deserve to know about writing. This book is not a writing handbook, not a writing guide book, not a grammar text, not a reader. It really is a writing textbook. It uses a completely new approach to the task of teaching students what they need to know to write with the same confidence that professional writers have. Professional writers somehow---in journalism school or in a one-on-one writing experience with editors or other professional writers---acquire an unerring sense of the structure of every sentence they write---the subordination and parallelism that writers must understand to punctuate and write acceptably. Students need this same "sentence sense" to write with confidence. *Writing Insight* has explanations and exercises that enable students to acquire this "sentence sense" that they deserve to have. Students who learn what this book teaches about writing will experience a very helpful "behavior modification" insofar as writing is concerned. They will observe the structure of every sentence they write and read---the subordination and parallelism---and will be able to write more skillfully and confidently. *Writing Insights* also deals extensively with content---theses, development, and the defense of theses. Also covered are usage problems---such as faulty agreements, run-on sentences, distortions, grammatical errors, etc. There are also units on book review and research paper writings.
