Global Change in Multispecies Systems: Part I, Volume 46 (Advances in Ecological Research)

Global Change in Multispecies Systems: Part I, Volume 46 (Advances in Ecological Research)

Advances in Ecological Research is one of the most successful series in the highly competitive field of ecology. Each volume publishes topical and important reviews, interpreting ecology as widely as in the past, to include all material that contributes to our understanding of the field. Topics in this invaluable series include the physiology, populations, and communities of plants and animals, as well as landscape and ecosystem ecology.
