When you want to change your lifestyle entirely, you need to have enough motivation but you also need to have knowledge about the lifestyle that you are adopting. Many people who want to live in an RV full-time fail to find a balance in their lives which make that living pleasurable, while others can live the dream and learn to compromise on comforts for the sake of freedom. They wake up in the mornings to feel that they have breathed fresh air. They see different scenery every morning if they so wish. What you need to know before joining them is whether you're cut out for the lifestyle and what differences there are between living in a conventional home and living in an RV. This book bridges that gap in your knowledge, and although you may choose to save a fortune by staying at home, you may also choose the lesser traveled road and discover the benefits of living in an RV.

Both lifestyles, either in an RV or a home, have their pros and cons. Many who choose the RV lifestyle find that adapting their lives comes naturally. It takes a unique and free spirited person to compromise on the luxuries of home living in favor of the adventurous lifestyle offered by RV living, though many do. Once you weigh the pros and cons, you can make the choice wisely, and that's what this book is all about. The book will appeal to the free spirited who seek something more than merely surviving month to month oppressed by mortgage payments and housing taxes.

Both have benefits, though those who live the life they choose, rather than the life chosen for them by responsibility, find that RV life tests their personal boundaries and skills freeing up their lives to live beyond the grid. Journey with us and learn if living in an RV will suit you, and be prepared for the journey of your life.
