Michael H. Ross PhD, Wojciech Pawlina MD

Histology: A Text and Atlas, with Correlated Cell and Molecular Biology, 6th Edition Michael H. Ross PhD, Wojciech Pawlina MD

Now in its revised, updated Sixth Edition, **Histology: A Text and Atlas** is ideal for medical, health professions, and undergraduate biology students. This best-selling combination text and atlas includes a detailed textbook description that emphasizes clinical and functional correlates of histology, fully supplemented by vividly informative illustrations and photographs. Separate, superbly illustrated atlas sections follow almost every chapter and feature large-size, full-color digital micrographs, with labels and legends that highlight details of microanatomy.

For this edition, approximately 20 percent of the micrographs have been replaced with newly enhanced, sharper images. One third of the illustrations have been redrawn in a new style.

A powerful online interactive atlas is included with the book and features all of the plates in the text with interactive functionality.

From reader reviews:

Daniel Smith:

What do you think about book? It is just for students because they're still students or this for all people in the world, what best subject for that? Only you can be answered for that problem above. Every person has diverse personality and hobby per other. Don't to be pressured someone or something that they don't need do that. You must know how great in addition to important the book Histology: A Text and Atlas, with Correlated Cell and Molecular Biology, 6th Edition. All type of book are you able to see on many sources. You can look for the internet solutions or other social media.

Jim Martin:

Spent a free a chance to be fun activity to perform! A lot of people spent their leisure time with their family, or their particular friends. Usually they performing activity like watching television, going to beach, or picnic within the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your own personal free time/ holiday? Can be reading a book might be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of publication that you should read. If you want to try look for book, may be the reserve untitled Histology: A Text and Atlas, with Correlated Cell and Molecular Biology, 6th Edition can be very good book to read. May be it can be best activity to you.

Jacob Lehr:

You may get this Histology: A Text and Atlas, with Correlated Cell and Molecular Biology, 6th Edition by go to the bookstore or Mall. Simply viewing or reviewing it can to be your solve trouble if you get difficulties to your knowledge. Kinds of this book are various. Not only by means of written or printed but also can you enjoy this book by means of e-book.
