The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) Marshall Brain

Engineering is where human knowledge meets real-world problems—and solves them. It's the source of some of our greatest inventions, from the catapult to the jet engine. Marshall Brain, creator of the How Stuff Works series and a professor at the Engineering Entrepreneurs Program at NCSU, provides a detailed look at 250 milestones in the discipline. He covers the various areas, including chemical, aerospace, and computer engineering, from ancient history to the present. The topics include architectural wonders like the Acropolis, the Great Wall of China, and the Eiffel Tower; transportation advances such as the high-speed bullet train; medical innovations, including the artificial heart and kidney dialysis; developments in communications, such as the cell phone; as well as air conditioning, Wi-Fi, the Large Hadron Collider, the self-driving car, and more.

From reader reviews:

Terry Tyrrell:

Book is usually written, printed, or created for everything. You can recognize everything you want by a publication. Book has a different type. To be sure that book is important thing to bring us around the world. Next to that you can your reading ability was fluently. A book The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) will make you to always be smarter. You can feel a lot more confidence if you can know about anything. But some of you think in which open or reading some sort of book make you bored. It isn't make you fun. Why they can be thought like that? Have you seeking best book or ideal book with you?

Rodney Alvarez:

Hey guys, do you wishes to finds a new book to see? May be the book with the subject The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) suitable to you? The book was written by well-known writer in this era. The book untitled The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) is the main one of several books that everyone read now. That book was inspired a lot of people in the world. When you read this reserve you will enter the new age that you ever know ahead of. The author explained their idea in the simple way, thus all of people can easily to comprehend the core of this e-book. This book will give you a lot of information about this world now. So you can see the represented of the world in this book.

Irene Carpenter:

The book untitled The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) is the reserve that recommended to you you just read. You can see the quality of the e-book content that will be shown to you actually. The language that author use to explained their way of doing something is easily to understand. The author was did a lot of exploration when write the book, and so the information that they share to your account is absolutely accurate. You also will get the e-book of The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) from the publisher to make you considerably more enjoy free time.

Mario Davis:

Don't be worry if you are afraid that this book can filled the space in your house, you will get it in e-book means, more simple and reachable. This specific The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones) can give you a lot of good friends because by you investigating this one book you have factor that they don't and make you actually more like an interesting person. This particular book can be one of a step for you to get success. This guide offer you

information that perhaps your friend doesn't understand, by knowing more than additional make you to be great men and women. So , why hesitate? Let's have The Engineering Book: From the Catapult to the Curiosity Rover, 250 Milestones in the History of Engineering (Sterling Milestones).
