Fuzzy Multiple Attribute Decision Making: Methods and Applications (Lecture Notes in Economics and Mathematical Systems) Shu-Jen Chen, Ching-Lai Hwang

This monograph is intended for an advanced undergraduate or graduate course as well as for researchers, who want a compilation of developments in this rapidly growing field of operations research. This is a sequel to our previous works: "Multiple Objective Decision Making--Methods and Applications: A state-of-the-Art Survey" (No.164 of the Lecture Notes); "Multiple Attribute Decision Making--Methods and Applications: A State-of-the-Art Survey" (No.186 of the Lecture Notes); and "Group Decision Making under Multiple Criteria--Methods and Applications" (No.281 of the Lecture Notes). In this monograph, the literature on methods of fuzzy Multiple Attribute Decision Making (MADM) has been reviewed thoroughly and critically, and classified systematically. This study provides readers with a capsule look into the existing methods, their characteristics, and applicability to the analysis of fuzzy MADM problems. The basic concepts and algorithms from the classical MADM methods have been used in the development of the fuzzy MADM methods. We give an overview of the classical MADM in Chapter II. Chapter III presents the basic concepts and mathematical operations of fuzzy set theory with simple numerical examples in a easy-to-read and easy-to-follow manner. Fuzzy MADM methods basically consist of two phases: (1) the aggregation of the performance scores with respect to all the attributes for each alternative, and (2) the rank ordering of the alternatives according to the aggregated scores.

From reader reviews:

Alfred Hoover:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each e-book has different aim or goal; it means that guide has different type. Some people feel enjoy to spend their the perfect time to read a book. They are reading whatever they consider because their hobby is usually reading a book. Think about the person who don't like studying a book? Sometime, particular person feel need book when they found difficult problem or maybe exercise. Well, probably you should have this Fuzzy Multiple Attribute Decision Making: Methods and Applications (Lecture Notes in Economics and Mathematical Systems).

Doris Griffin:

Information is provisions for people to get better life, information nowadays can get by anyone at everywhere. The information can be a know-how or any news even an issue. What people must be consider whenever those information which is within the former life are difficult to be find than now is taking seriously which one is suitable to believe or which one the actual resource are convinced. If you have the unstable resource then you get it as your main information it will have huge disadvantage for you. All of those possibilities will not happen in you if you take Fuzzy Multiple Attribute Decision Making: Methods and Applications (Lecture Notes in Economics and Mathematical Systems) as your daily resource information.

Robert Thompson:

This Fuzzy Multiple Attribute Decision Making: Methods and Applications (Lecture Notes in Economics and Mathematical Systems) is brand new way for you who has curiosity to look for some information as it relief your hunger details. Getting deeper you on it getting knowledge more you know or perhaps you who still having small amount of digest in reading this Fuzzy Multiple Attribute Decision Making: Methods and Applications (Lecture Notes in Economics and Mathematical Systems) can be the light food for yourself because the information inside this particular book is easy to get by simply anyone. These books develop itself in the form which can be reachable by anyone, yes I mean in the e-book web form. People who think that in reserve form make them feel drowsy even dizzy this book is the answer. So there is absolutely no in reading a book especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss the item! Just read this e-book variety for your better life and also knowledge.

Arthur Reaves:

That guide can make you to feel relax. This book Fuzzy Multiple Attribute Decision Making: Methods and Applications (Lecture Notes in Economics and Mathematical Systems) was vibrant and of course has pictures on there. As we know that book Fuzzy Multiple Attribute Decision Making: Methods and

Applications (Lecture Notes in Economics and Mathematical Systems) has many kinds or type. Start from kids until youngsters. For example Naruto or Private eye Conan you can read and feel that you are the character on there. Therefore not at all of book usually are make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book to suit your needs and try to like reading that will.
