This pioneering book draws on Asian theory, research and practice to identify the strengths, weaknesses and challenges in all sectors of Asian education and training. It critically and insightfully discusses the ideas, skills and practices that are necessary to advance knowledge in leadership and management, professional development, innovation and quality assurance and research and diffusion.

Distance and Blended Learning in Asia provides an insightful, informative and critical review of ODL / ICT developments in schools, open schooling, colleges, universities, workplace training, professional development and non-formal adult and community education.
