Safety must be a priority for all divers. This begins with preparedness and proper techniques. This book was written to include most, if not all, commonly encountered problems a diver may be faced with, and how to deal with them. Medically related scuba diving conditions are thoroughly reviewed and the on-site treatment is outlined for each specific ailment. In addition, a detailed review is presented of ways to identify a problem in the water, search for a victim, in-water artificial ventilation, exiting with a victim, and a whole host of other specific emergency management protocols.

"On Site Management of Scuba Diving and Boating Emergencies" will help the rescuer tip the balance in favor of the victim.
