Systematic support for improving education and learning in further and higher education has moved to centre stage in recent years- a phenomenon reflected in the booming membership of professional development bodies.

This title complements the authors' introductory *Guide to Staff and Educational Development*, also in this series. This book provides a more detailed consideration of the fundamental issues in staff and educational development, analysing the context in which it functions, the roles undertaken by practitioners and ways in which staff and educational development can be promoted and managed at senior and institutional levels, as well as for individuals.

Written in an engaging, accessible style, it is rooted in practice with a wealth of case study material and practical advice. The book covers areas such as:

- \* how professionals learn and develop
- \* developing institutional policy and strategy for development
- \* leading an educational development unit

- \* areas of specialist expertise
- \* career pathways

*Enhancing Staff and Educational Development* combines the insights of seasoned developers with the innovations of new developers, and will be a compelling read for anyone dedicated to the improvement of teaching and learning.
