*Medical-Surgical Nursing: Clinical Reasoning in Patient Care , Sixth Edition is appropriate for courses in medical-surgical nursing. It also serves as a helpful reference for practicing nurses.*

*Improving clinical reasoning; focusing on what a new nurse needs to know*

**Medical-Surgical Nursing** provides readers with all of the practical knowledge and skills they need to care for adult patients—without overwhelming readers with unnecessarily dense writing that is beyond the beginning nurse’s scope of practice. Carefully selected content focuses on the things that new nurses will need to know when they first enter practice: how to promote health, facilitate recovery from illness and injury, and provide support when coping with disability or loss. Throughout the text, the authors focus on individualized holistic nursing care as the essential element in learning and practicing nursing, regardless of the gender, age, race, culture, or socioeconomic background of the patient or practitioner. Readers are given the tools they need to develop their clinical reasoning abilities so that they can make safe and effective decisions on the job. With its understandable language, visual approach, and consistent teaching and learning format, it’s no surprise that readers overwhelmingly report that they truly *like* reading this text.

**Medical-Surgical Nursing** is available packaged with MyNursingLab®, an online homework, tutorial, and assessment program that engages students in learning. It helps students review, remember and apply key concepts and skills—resulting in better performance in the course—and provides educators with a dynamic set of tools for gauging individual and class progress.

Students, if interested in purchasing this title with MyNursingLab, ask your instructor for the correct package ISBN. Instructors, contact your Pearson representative for more information.

## Teaching and Learning Experience

To provide a better teaching and learning experience, for both instructors and students, this program will help:

- **Improve Results:** MyNursingLab better prepares students for the classroom, and beyond.
- **Develop Clinical Reasoning Skills for Today and Tomorrow:** Students are encouraged to think creatively and critically about patient care.
- **Visualize Pathophysiology:** A highly-visual presentation of the underlying pathophysiology of disease helps bring the content to life, enhancing students’ understanding and aiding in clinical application.
- **Focus on Nursing Care:** The authors emphasize holistic, individualized care for all patients.
