The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e Joyce L. Mulholland RNP

Use the simplicity of the dimensional analysis method to minimize drug calculation errors! **The Nurse, The Math, The Meds, 2nd Edition** helps you overcome any math anxiety you may have by clearly explaining how to use the dimensional analysis method. It shows how to analyze practice problems, find the reasonable answer, and then evaluate it. But first, it lets you refresh your math skills with a review of essential math. Written by noted nursing educator Joyce Mulholland, this book offers over 1,400 questions for plenty of practice in mastering math concepts and learning dosage calculations.

- **A comprehensive math review** at the beginning of the book includes a self-assessment test to help you identify areas of strength and weakness.
- **A consistent chapter format** includes objectives, essential prior knowledge, equipment needed, estimated time to complete the chapter, key vocabulary, and more.
- **Rapid Practice exercises** follow each new topic with multiple practice problems, so you can apply concepts immediately.
- **A full-color design** includes a special margin section so you can work out practice problems on the spot.
- **Mnemonics** make memorization easier and save time in learning.
- **Test tips** enhance your comprehension and improve test-taking skills and comfort level.
- **Red arrow alerts** call attention to critical math concepts and patient safety theory.
- **Clinical Relevance boxes** help you apply medication-related concepts to practice.
- **Unique! FAQ and Answers** are derived from students' actual classroom questions, and are especially useful if you are studying outside of a classroom environment.
- **Unique! Ask Yourself questions** help in synthesizing information and reinforcing understanding.
- **Unique! Communication boxes** include sample nurse-patient and nurse-prescriber dialogues that illustrate clinical application of medication administration.
- **Cultural boxes** describe selected math notation and medication-related cultural practices.
- **TJC and ISMP recommendations** for abbreviations, acronyms, and symbols are used to reduce medication errors, increase patient safety, and ensure compliance with agency regulations.
- **Online and print references** provide opportunities for further research and study.
- **Two chapter finals** are included at the end of each chapter.
- **Two comprehensive finals** evaluate your understanding, one in NCLEX® exam-style multiple-choice format and the other following a traditional written format.
- **Answer key** in the back of the book provides step-by-step solutions to the *Rapid Practice* exercises, chapter finals, and comprehensive finals so you can pinpoint specific areas for further review.
- **A red flag icon** calls attention to high-risk medications.
- **Updated trends in safer medication administration** help in reducing sentinel events and adverse drug events.
- **Practice problems** are more clinically relevant and organized from simple to complex.
- **Additional clinical relevance, communication, and cultural boxes** help prevent errors by offering a variety of examples from clinical practice.
- **Updated content includes:**

- More realistic fraction and decimal problems
- Expanded Total Parenteral Nutrition (TPN) section with a typical order, common errors, and current guidelines to reduce errors
- Updated coverage of pediatric medication

From reader reviews:

Fern Rodriquez:

The event that you get from The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e will be the more deep you digging the information that hide in the words the more you get serious about reading it. It does not mean that this book is hard to understand but The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e giving you enjoyment feeling of reading. The article writer conveys their point in specific way that can be understood by simply anyone who read the idea because the author of this publication is well-known enough. This book also makes your own personal vocabulary increase well. It is therefore easy to understand then can go with you, both in printed or e-book style are available. We highly recommend you for having this kind of The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e instantly.

Jennifer Randolph:

People live in this new moment of lifestyle always try and and must have the time or they will get lot of stress from both way of life and work. So , once we ask do people have time, we will say absolutely without a doubt. People is human not really a huge robot. Then we inquire again, what kind of activity are you experiencing when the spare time coming to you of course your answer will certainly unlimited right. Then do you try this one, reading books. It can be your alternative within spending your spare time, the actual book you have read is The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e.

George Chadwick:

In this particular era which is the greater man or woman or who has ability to do something more are more important than other. Do you want to become one among it? It is just simple strategy to have that. What you have to do is just spending your time not much but quite enough to experience a look at some books. On the list of books in the top list in your reading list is definitely The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e. This book which can be qualified as The Hungry Mountains can get you closer in becoming precious person. By looking right up and review this book you can get many advantages.

Brandon Seymour:

That reserve can make you to feel relax. This book The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e was colorful and of course has pictures around. As we know that book The Nurse, The Math, The Meds: Drug Calculations Using Dimensional Analysis, 2e has many kinds or type. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and think you are the character on there. So , not at all of book tend to be make you bored, any it offers you feel happy, fun and relax. Try to choose the best book for you and try to like reading that will.
