Have you been dealing with someone, who is a Narcissist, Sociopath, Psychopath, Schizophrenic, someone with Bipolar Disorder, multiple personality disorder, or some other mental disorder? Well, you are not alone. Mental illness has dramatically increased in the United States. The amount of people qualifying for Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) based on their mental health increased nearly two and a half times between 1987 and 2007—from 1 in 184 Americans to 1 in 76. For children, the rise is even more startling—a thirty-five-fold increase in the same two decades. In 2011, the U.S. Centers for Disease Control and Prevention (CDC) reported that antidepressant use in the United States has increased nearly 400% in the last two decades. The New York Times reported in 2007 that the number of American children and adolescents treated for bipolar disorder had increased 40-fold between 1994 and 2003. These statistics are very disturbing, imagining the amount of crazy people walking amongst us. This book will be your guide on how to deal with crazy people and how to avoid getting involved with them.

While there is an extensive list of mental illnesses, this book will focus on the most common ones, including:
