Hui Wang

Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) Hui Wang

Developed from the author's course on Monte Carlo simulation at Brown University, **Monte Carlo Simulation with Applications to Finance** provides a self-contained introduction to Monte Carlo methods in financial engineering. It is suitable for advanced undergraduate and graduate students taking a one-semester course or for practitioners in the financial industry.

The author first presents the necessary mathematical tools for simulation, arbitrary free option pricing, and the basic implementation of Monte Carlo schemes. He then describes variance reduction techniques, including control variates, stratification, conditioning, importance sampling, and cross-entropy. The text concludes with stochastic calculus and the simulation of diffusion processes.

Only requiring some familiarity with probability and statistics, the book keeps much of the mathematics at an informal level and avoids technical measure-theoretic jargon to provide a practical understanding of the basics. It includes a large number of examples as well as MATLAB[®] coding exercises that are designed in a progressive manner so that no prior experience with MATLAB is needed.

From reader reviews:

Anthony Sierra:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite guide and reading a guide. Beside you can solve your trouble; you can add your knowledge by the book entitled Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series). Try to make the book Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) as your friend. It means that it can for being your friend when you sense alone and beside associated with course make you smarter than previously. Yeah, it is very fortunate to suit your needs. The book makes you much more confidence because you can know everything by the book. So , we need to make new experience along with knowledge with this book.

Tracy Painter:

Reading a publication can be one of a lot of exercise that everyone in the world enjoys. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a e-book will give you a lot of new info. When you read a publication you will get new information since book is one of various ways to share the information or their idea. Second, looking at a book will make anyone more imaginative. When you reading a book especially fictional book the author will bring you to definitely imagine the story how the characters do it anything. Third, you are able to share your knowledge to others. When you read this Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series), you can tells your family, friends along with soon about yours guide. Your knowledge can inspire average, make them reading a e-book.

Clare Andrews:

The book with title Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) has lot of information that you can study it. You can get a lot of profit after read this book. That book exist new expertise the information that exist in this reserve represented the condition of the world at this point. That is important to yo7u to learn how the improvement of the world. That book will bring you within new era of the syndication. You can read the e-book on your smart phone, so you can read this anywhere you want.

Christie Rich:

This Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) is great guide for you because the content which can be full of information for you who always deal with world and have to make decision every minute. This kind of book reveal it facts accurately using great plan word or we can say no rambling sentences within it. So if you are read that hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with attractive delivering sentences. Having Monte Carlo Simulation with Applications to

Finance (Chapman and Hall/CRC Financial Mathematics Series) in your hand like obtaining the world in your arm, information in it is not ridiculous one particular. We can say that no publication that offer you world inside ten or fifteen second right but this publication already do that. So , it is good reading book. Hi Mr. and Mrs. hectic do you still doubt this?
