Mars Up Close: Inside the Curiosity Mission Marc Kaufman

With images never published before, many with surprising colors and landscapes that make you want to spend your next vacation on Mars, this is the one and only book written in consultation with NASA scientists that explains everything, detail by detail and moment by moment, about the most ambitious space expedition the human race has ever undertaken. *Mars Up Close* combines inside stories, fascinating facts, up-to-date maps, accessible science, eye-popping pictures, and visions of a future not that far away thanks to the groundbreaking success of NASA's Curiosity mission. Renowned science journalist Marc Kaufman spent two years embedded with the engineers and scientists at NASA's Jet Propulsion Laboratory, cheering on the rover's spine-tingling landing, learning the backstory of anticipated findings, and witnessing the inescapable frustrations that come from operating a \$2.5-billion multitasking robot on a planet 35 million miles from Earth. For pop science, space, and technology lovers, *Mars Up Close* takes you inside the mission and onto the surface of Mars. As an added special feature, this book contains embedded Augmented Reality coding: Download NASA's free app and bring the Curiosity rover and other Mars spacecraft into 3-D reality right on its pages!

Right now, choose your own personal ways to get more information about your e-book. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose right ways for you.

Anthony Malloy:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that looking at is not important, boring as well as can't see colorful pictures on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Mars Up Close: Inside the Curiosity Mission can make you sense more interested to read.
