Urhobo Language Today

Urhobo Language Today

This is a pioneering work on Urhobo language, and since language is not the restricted domain of only scholars of linguistics, other aspects of the language or issues that impinge on language use are also discussed in this collection of essays by eleven experts drawn from research institutes and universities. Since literature is a vehicle of language, the proverbs and axioms of the language as well as the oratorical and performance traditions in Urhobo are also covered competently. Other cultural aspects, especially music, are also seen as enhancers of the language. To underscore the significance of religion and language, some contributors here examine the relationship between the Urhobo language and Christian evangelisation and between the language and the people's belief systems. Another also explores the place of language in what has come to be known as Urhobo "disco" music. The essays reinforce each other and some points are repeated for emphasis because of their cultural significance. The closeness of several topics, especially the challenges of the language and culture and on evangelisation in Urhobo as well as Gospel music in Urhobo, is intended to exhaustively open up the Urhobo language debate." Tanure Ojaide is Professor of African-American and African Studies at the University of North Carolina at Charlotte, where he teaches African/Pan-African literature and art. Rose Aziza is the Head of Department of Languages and Linguistics and Director of the Urhobo Studies Programme at the Delta State University in Nigeria
