Bicycle: The History David V. Herlihy

During the nineteenth century, the bicycle evoked an exciting new world in which even a poor person could travel afar and at will. But was the “mechanical horse” truly destined to usher in a new era of road travel or would it remain merely a plaything for dandies and schoolboys? In *Bicycle: The History* (named by *Outside* magazine as the #1 book on bicycles), David Herlihy recounts the saga of this far-reaching invention and the passions it aroused. The pioneer racer James Moore insisted the bicycle would become “as common as umbrellas.” Mark Twain was more skeptical, enjoining his readers to “get a bicycle. You will not regret it—if you live.”

Because we live in an age of cross-country bicycle racing and high-tech mountain bikes, we may overlook the decades of development and ingenuity that transformed the basic concept of human-powered transportation into a marvel of engineering. This lively and engrossing history retraces the extraordinary story of the bicycle—a history of disputed patents, brilliant inventions, and missed opportunities. Herlihy shows us why the bicycle captured the public’s imagination and the myriad ways in which it reshaped our world.

From reader reviews:

Charlotte Maas:

The book Bicycle: The History make you feel enjoy for your spare time. You should use to make your capable a lot more increase. Book can to become your best friend when you getting stress or having big problem using your subject. If you can make reading a book Bicycle: The History to get your habit, you can get more advantages, like add your personal capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like available and read a reserve Bicycle: The History. Kinds of book are several. It means that, science guide or encyclopedia or other folks. So , how do you think about this e-book?

Warren Zeigler:

That book can make you to feel relax. This particular book Bicycle: The History was bright colored and of course has pictures on the website. As we know that book Bicycle: The History has many kinds or type. Start from kids until young adults. For example Naruto or Private investigator Conan you can read and think that you are the character on there. Therefore not at all of book are generally make you bored, any it makes you feel happy, fun and relax. Try to choose the best book to suit your needs and try to like reading in which.

Antonio Fells:

As a scholar exactly feel bored to be able to reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just minor students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that reading is not important, boring along with can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Bicycle: The History can make you truly feel more interested to read.

John Gravatt:

What is your hobby? Have you heard in which question when you got college students? We believe that that concern was given by teacher to their students. Many kinds of hobby, All people has different hobby. And you know that little person including reading or as reading through become their hobby. You should know that reading is very important as well as book as to be the point. Book is important thing to include you knowledge, except your own teacher or lecturer. You find good news or update regarding something by book. Numerous books that can you take to be your object. One of them are these claims Bicycle: The History.
