Charlie Wesencraft is one the key early wargamers who through their enthusiasm, knowledge and writing helped turn miniature wargaming into a worldwide hobby. This new book is about how to wargame the French-Indian War and the American War of Independence. The book analyses both wars and describes them battle by battle. Each description is accompanied by a map and notes on how each encounter can be represented on the wargaming table top. The book also includes some of his previously unpublished wargaming rules which are a development of his system from his earlier two wargaming books. This is his first new wargaming book in just under 40 years.
